Foreword

We, the graduates of Bethlehem High School, have found within these halls many sustaining elements with which to mold our lives.

To many of us these three years have been another milestone in our long journey onward to success in some chosen profession. To others it has been the foundation on which advancement in some worthy occupation will depend, whether this be clerical, business, or social work. And still to others it will be the symbol by which they will preserve the principle on which it is based . . . . the right to an education in these United States.

Yet, regardless of future plans, if each of us were asked to make a sketch of the most outstanding moment in these three years, the sketches would, indeed, be varied; the weekly assemblies, the Junior Class Play, the Christmas Vespers, the football games, the mid-year exams, the Senior Prom - - - - - .

And if these were assembled all in one book, the following pages show how it would look - - - - - - .

Advisor .....Mr. Joseph McIntyre

'Twas a cold wintry night in the year of once upon a time. The wind was forming weird sounds as it whistled through the bare limbs of the trees, and the moon cast strange shadows on the dark ground. On this fateful night my beat was in the vicinity of the institution (educational, that is) known as Liberty High School. Way back in the corner of the school I noticed a sliver of light shining through one of the frost covered windows. After making sure my gun was loaded and my bubble gum was placed properly in my hollow tooth, I went to investigate. Upon entering the premises, I discovered to my astonishment that the ray of light had come from none other than room 116. Seeing that the door was opened, I decided the best thing to do was to investigate further. Unnoticed, I slyly entered and after tip-toeing to the rear of the room, I surveyed my surroundings.

I first noticed Dick Strouce lounging in a corner with his managing editor, Fred Bachman, having one of their customary arguments. In another corner Alix Moyer and Kay Peterson were busily deciding who was going to will what to whom. Don Smith, the business manager, next caught my eye. If my deduction was right he was trying to make sure that Harvey Walter's biography didn't end up with Dave Walter's picture. The sports editors, Hank Cochran and Dot Lazarowitz, were very much interested in the snapshots which Johnny Posivak, the able photographer, had taken. Sylvia Grube and Wiggie Chiles were having their own picture trouble—trying to find names for the faces and blurs in the organization photos. Amongst all this, I noticed that typists, associate editors and even the art editor, Carole Wilhelm, were scurrying around trying to reach the much overdue "dead-line."

Finally realizing that nothing was amiss, I returned to the outer spaces and decided not to 'book' anyone. The *Case of the Cauldron* was c'osed.

TECH CAULDRON STAFF

We're the Cauldron staff.

Believe us, we're normal human being's, at least up to the time of the deadline, but then something snaps. Hair is pulled by the handfulls, brains are racked and reracked, and all kinds of complications set in.

It's our job to set those complications aright again. This takes time, concentration, and above all, willpower.

Well, its all over now. The clouds of battle have cleared away and the sun shines on a bright future.

Seriously, both the staff and our advisor, Mr. Brown have enjoyed producing this book for your pleasure, and we hope that in the future it will be a source of many happy memories.

SENIOR CLASS PLAY

Seated, left to right: M. Bujcs, D. Taylor, H. Fleck, N. Eisenhart, B. Matlich, C. Wilhelm, P. Stoneback, T. Bastianelli, M. Murtha, P. Kuhn, J. Sames, M. L. Brachman. *Standing:* Mr. Seals, C. Gatanis, T. Hill, E. Geseck, D. Moore, F. Dunlap, T. Clay, G. Goldberg, R. Williams, J. Valentine, R. Taglang, J. Letowt.

YOU CAN'T TAKE IT WITH YOU, and brother, you can't! What a play! What a director! What a cast! They said it couldn't be done, but we did it! - - - - with the valiant support of the Senior Class and the entire school.

Talk about properties! We erupted whole houses to furnish the stage! Talk about scenery! We painted until there was war paint everywhere but on the flats! Talk about lighting! Working with that red glow made us all appear like the-morning - after - the - night - before! Bloodshot eyes, you know!) Lines! We went crazy trying to memorize them! Our playbooks became Bibles Bibles! We carried them everywhere. People began to think we were insane when we mumbled our parts walking up and down Broad Street. Maybe we were!

The cast was confused, the committees were confused, the class was confused, Mr. Seals was confused, but thank heavens the play was written confused so it seemed very natural!

Penny-round, honey, filled with the Divine Urge; Essie Love Dreams and Dancing; Ed-presting and Xylophone playing; Paul-erector sets and fireworks; grandpa snakes and commencements; Alice—the only safe one; Tony—the handsome young one, president of Kirby and Company; love—cops—Russians—cats—drunks—and of course Mr. and Mrs. Kirby, the socialities—all became hilariously funny and endearingly sweet to the senior class.

We can well say we did it and remember, YOU CAN'T TAKE IT WITH YOU!

GROWING PAINS was a crazy little comedy concerning that ever-present menace—adolescence. Terry McIntyre is a gay little sprite, fifteen going on sixteen, who is emerging from the tomboy stage and suffering from her first "crush" at the same time. Her brother, George, "a man" (?) of seventeen has no use for females of the opposite sex until Prudence Darling, a bewitching blonde, flutters her false eyelashes in his direction at a party given by Terry and George. Unfortunately, George cannot devote his entire attention to Prudence, because he is stuck with Elsie Patterson, the awkward stoop-shouldered, mother-ridden bookworm while Mrs. Patterson expostulates freely on her daughter's I. Q. of 139½ and her marked aversion to rumble seats. The party progresses beautifully with no serious mishaps except for George, losing his trousers and being obliged to traipse across the stage in his long red underwear while Elsie (the wretch) minutely scrutinizes his white flannels.

The party has a rather conventional ending, with all the boys being shipped off to jail for the evening on the charge of "resisting an officer in pursuit of an exceeder of the speed limit"—namely Georgie.

Mr. and Mrs. Pattrson naturally have "kittens" on finding their angelic offspring in jail, but a comedy wouldn't be a comedy without a happy ending, so naturally everything turns out for the best as the final curtain falls.

TECH JUNIOR CLASS PLAY

Last year, the Class of '51 was at a loss for additional projects after completing the sale of Christmas Cards, Easter Candy, and their share of the Minstrel Tickets. After much thought on the subject and knowing of the success of Class plays in other schools, they decided to gamble and try something that was never done before at Tech; sponsor a Junior Class Play.

At once the ball started rolling, and everyone pitched in to try to make the play a success. Dave Raab was appointed business manager, and Mr. Keim, our advisor, volunteered to do the directing.

The comedy, "Papa Behave", was chosen, and the cast of characters was selected. The cast was John Marvin as Robert Appleby, Gordon Burk as Charles Appleby, Walter Schaedler as Victor Appleby, Francis Tratnyek as Dickens, Edison Leonard as Alexander Appleby, Steve Kloo as Otto Chup, Bernard Wiczkowski as Rudolph, Earle MacMullen as Harry Billings, Benjamin Kincade as Dr. Pinker, John Sarik as Arthur Seamon, Douglas Kashner as Melchizedek, Harris Hoke as Nebuchadnezzar, and Robert Wagner as Jehoshaphat.

The play was a great success, both financially and theatrically, and everyone in the cast had a great time.

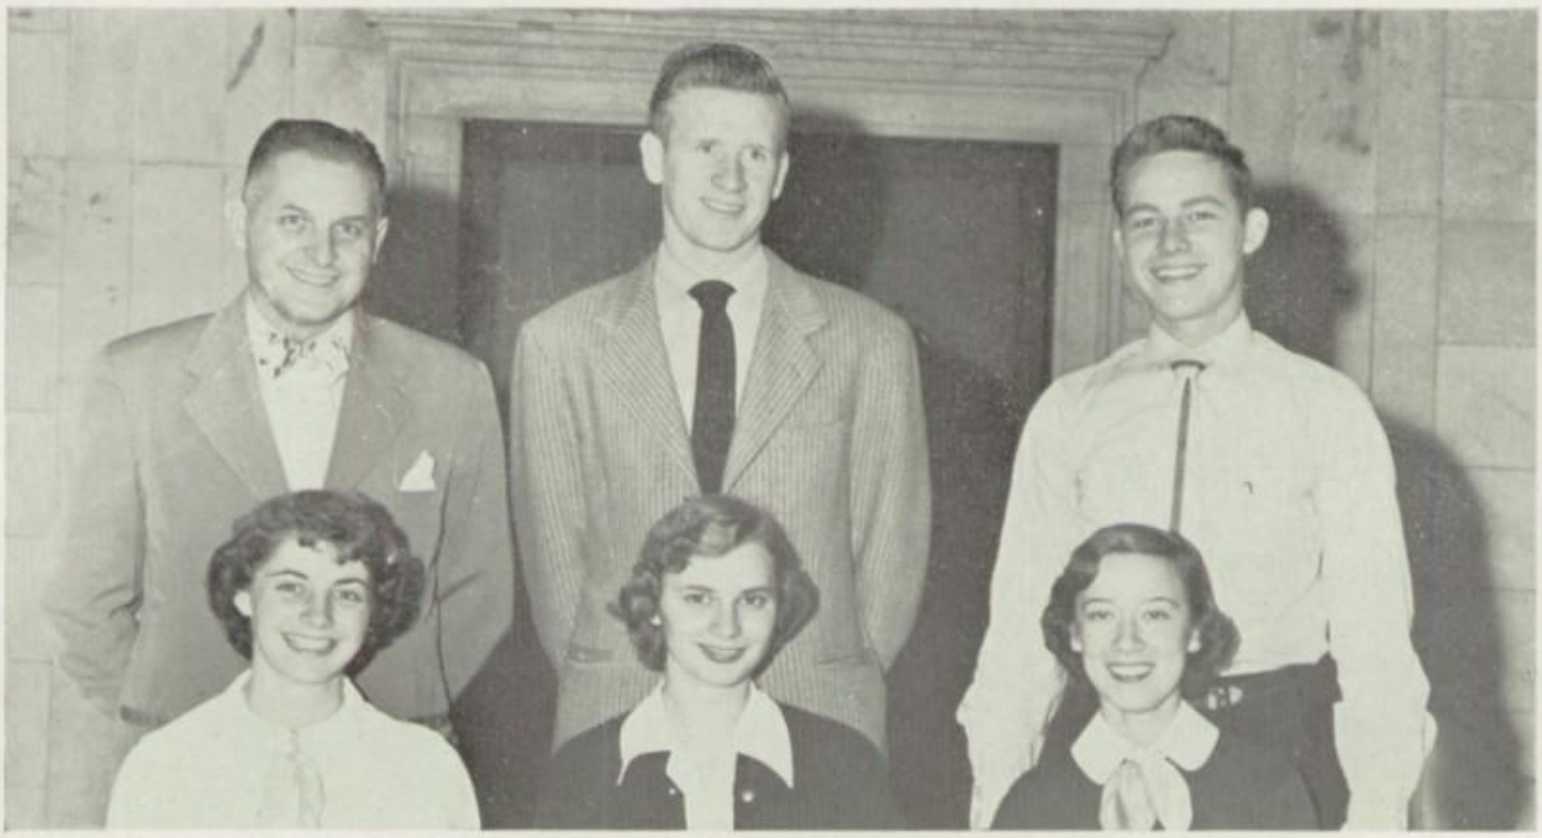
STUDENT ASSOCIATION



Seated left to right: Nancy Eisenhart, Dorothy Knesz, Theresa Wash. *Standing, left to right:* Mr. Earl Evans, William Rogers, John Valentine.

The Student Association of Liberty High School, under the able direction of Mr. Earl Evans, is one of the most important organizations of the school. The council consists of a representative from each homeroom. It is an organization "of the students, by the students, and for the students" and is a fine example of democracy.

The Student Association was responsible for the sale of booster cards, the formation of student receptionists for the school, and assisted with the Christmas Vespers. Any matters concerning the student body were undertaken by the Student Association. Monthy dances were sponsored by the association, and the profits used for the benefit of the entire student body.

During the year, our executive staff met with Allentown High's Student Council for the pur pose of promoting better relations between the two schools. Because of this the schools exchanged assembly programs which were enjoyed by the two student bodies.

The Student Association published the 1951 edition of the Liberty High School Handbook.

The bi-weekly publication, *Liberty Life*, is published by the editorial and business staffs to keep students posted on the important and incidental happenings in Bethlehem High School.

Although no one ever dashed into the *Liberty Life* Room, 8 B, hollering "Stop the Presses" everyone learned a good deal about putting out a newspaper.

Everyone worked, but they had a good time while doing it. For example, the editorial staff has taken two trips. The first, the Pennsylvania School Press Association Conference, was held for two days in the early part of November. Then when the March winds howl around buildings, the staff, was blown to the streets of New York City, when it headed for the National High School Press Conference at Columbia University. It spent three marvelous days at this convention, winding up the trip with a dinner at the Waldorf Astoria Hotel.

A test of show business was even put into everyone's career on *Liberty Life*. This came along in the middle of March when the staff sponsored, directed and produced "Snappy Sketches."

When June rolled around, after putting out twelve issues of *Liberty Life*—it was a welcome vacation. But way down deep everyone loved getting issues out, and wouldn't have missed it for the world.

Le Cercle Francais, composed of second and third-year French students, met on the fourth Friday of each month during class periods. The purpose of these meetings was to help pupils become better acquainted with the people of France and their customs.

The usual club officers' reports were made in French and talks were given by some of the members about famous French people, places, and unusual occurrences. At every meeting at least two French songs were sung, one of which was the national anthem.

In the spring the third-year club took a trip to New York City where they visited French shops and restaurants, and saw a French movie and play.

Several speakers were obtained for the club among which was Mr. Chaponniere, who spoke of his native country, Switzerland. Another phase of club entertainment was the trip to the Moravian College Archives where many old German manuscripts were seen.

During the month of December it was the pleasure of the club to have Mr. William Gunther, a student teacher in German, take over the task of teaching the class. He told of his many experiences in Europe some of which were; attending the Nurnberg Trials and visiting Buchenwald Concentration Camp.

Over the Christmas holidays the entire club was invited to spend an afternoon at Miss Wilson's home. Refreshments were served and everyone had a wonderful time singing German Christmas carols and conversing with their friends.

One Friday each month Circulus Intimus, an intimate circle of ten Latin students, met during class time under the direction of Mrs. Leroy Funk. The club periods were strictly informal but definitely educational in nature.

The purpose of the Latin Club was to further develop the student's knowledge of the Roman people and their customs. Using a Roman holiday or festival as a theme, the members prepared talks, presented plays, and played games.

In December, the club celebrated the Saturnalia, a joyous festival very similar to our own Christmas. Interesting plays were given by the members of Circulus Intimus, and everyone participated in the singing of Christmas carols translated into Latin.

Near Valentine's Day, many stories of lovers in Roman mythology were told.

One month, slides were shown on the life of Vergil and on the Aeneid.

The year in Circulus Intimus came to a close with a grand picnic, symbloic of the food festivals the Romans celebrated frequently.

This year the student library staff group was organized on a different basis from other years, being known as a Student Library Staff, rather than a Library Club. There were no regularly scheduled meetings; there were no officers elected. Meetings were called by the librarian only as a need was indicated for general instruction in various library procedures. Otherwise, all instruction was on an individual basis. Members of the Student Library Staff were assigned to work in the library according to a regular schedule before school, during the fourth period, and after school, assisting the librarian with many routine library duties, and at the same time getting for themselves some excellent training in library science. Tasks performed by this staff included charging and discharging the daily circulation of books at the desk, slipping books, shelving books, preparing books for circulation, checking in magazines and preparing them for circulation, setting up displays, typing book pockets and cards, physical care of the library, assistance in book selection, assistance with reference problems, etc.

During Book Week in November this group planned and presented an assembly program and sponsored a Book Week contest, in which Miss Hemsath and Carol Schrader each won a prize —a book of her own choice.

The lone outside activity sponsored by this organization, this year, was a trip to Kutztown State Teachers College Library to assist in the formation of an organization to be knowns as Future Librarians of America.

SPANISH CLUB

Corresponding Secretary ..DANIEL SIGLEY
Treasurer .....GLORIA GERSHENOW

Advisor—Mrs. Baker

The second and third year Spanish students are given the opportunity to learn more about Spanish customs, games, songs, dances and ideas through the Spanish Club. All the business is conducted in Spanish. Individuals sing Spanish solos and the entire group often joins in the intricate songs and dances of Spain and Mexico. Guests who have traveled in foreign countries tell the club about the land in which they are interested. Amusing skits are often performed; these usually end in a convulsion of laughter from both audience and actors. This year's club was well named.

A highlight of the year was the Christmas celebration. The Nativity was read in both English and Spanish. Everyone participated in the game of breaking the pinata, which is a large box or jar filled with gifts and decorated to resemble an animal, flower or vegetable. It is suspended in mid-air and the "senores' and "senoritas" take turns trying to break it with a stick while they are blindfolded. The custom is a Mexican one observed on birthdays as well as Christmas.

When the roll was called at the Christmas meeting each member answered by telling what he wanted for Christmas. The answers ranged from "una muneca" (a doll), to "Betty Grable para professora de historia" (Betty Grable for a history teacher).

This year the group was composed of 5 sopranos, 6 altos, 5 tenors, and 6 basses. They were chosen at the beginning of the year by competitive tryouts. The members aimed this year to earn enough money to pay for their oufits and to have some leftover for a banquet.

Director .....DR. JOSEPH RICAPITO

This year marks the twenty-sixth year of the Liberty High School Band under the very able direction of Mr. Joseph Ricapito. The Band was started in 1924 by Mr. Ricabito and consisted of thirty-five members; this past year it consisted of 80 members.

In February of this year, the band acted as host to the Eastern Pennsylvania District Band in which eleven members of the Liberty Band participated. This band was honored to have Dr. Edwin Franko Goldman as the guest conductor.

The Band is self supporting and is aided by the devoted efforts of the Band Mothers' Club. It is through these efforts that the seniors are given an expense free trip to New York at the termination of each year.

ORCHESTRA

The Liberty High School Orchestra, composed of 40 musicians under its able conductor, Mr. Joseph Ricapito, was mainly concerned with playing classical music. The first few months were spent in sight reading new music.

The first appearance of the orchestra this year was at the annual Thanksgiving Program. The Christmas Vespers would not have been co nplete without the orchestra, which accompanied the Glee Club in Handel's Hallelujah Chorus. The orchestra also contributed its part to the Operetta, Baccalaureate Service, and Graduation Ceremony.

All these engagements did not mean that these busy Sophomores, Juniors, and Seniors of the Orchestra had no time for socail activities. The Halloween party was the first social event for the band and orchestra. The Christmas Party was presented for the parents by the members of the band and orchestra. This year three of the orchestra members were chosen for the Eastern District Orchestra Festival held at Emmaus. The orchestra members also helped in entertaining the guests at the District Band Festival.

June brought the annual picnic and the climax of the whole year when the Seniors of the band and orchestra spent a day in New York through the efforts of the "Mothers' Club".

A Future Nurses' Club was organized at Liberty High School, Bethlehem, Pennsylvania, in September 1944. The purpose of the Future Nurses' Club is guidance and assistance to all students interested in the Nursing profession.

It aims to guide students in selection of school, entrance requirements, personality requirements, financing, etc.

Senior girls met weekly in addition to the bi-monthly meetings of the club for instruction in Nursing mathematics and reading comprehension.

This year, the Future Nurses' Club had a membership of seventy-eight girls. Several boys have also expressed interest in Nursing. A boys' club might be organized at some future date, if warranted.

The Liberty High School Branch of the Future Teacher's Club of America accomplished a great deal this year.

The club visited the children in the orthopedic and cardiac classes of Higbee School here in Bethlehem. The members of the club brought the children all kinds of presents. It was a thrill to see their happy faces when they opened the gifts.

At another meeting the club was given helpful and interesting hints on teaching by Miss Walper. A movie was also shown on "The Fight for Better Schools."

In January, boys interested in teaching, entered the club, under the direction of Mr. Gilbert.

The American Association of University Women have become interested in this club and are going to supply educational films.

Our club this year was under the capable supervision of Mrs. Rene Priolo.

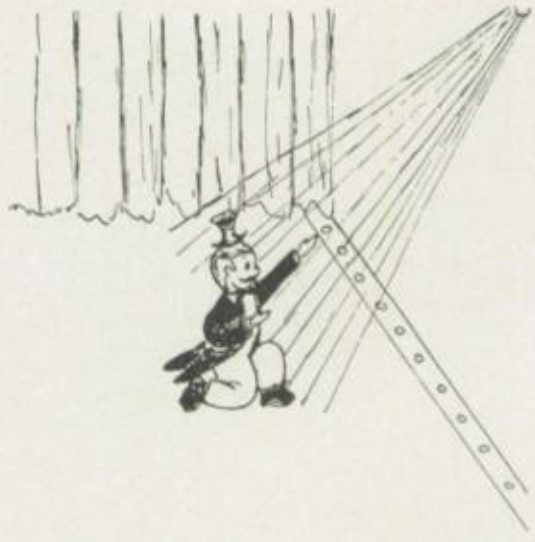
DRAMATIC WORKSHOP



The Dramatic Workshop under the able supervision of Mr. Richard Seals consists of students enrolled in elementary and advanced drama.

Drama appreciation, stage makeup, and acting, are only a few of the many fascinating phases about the theater that are included in the course.

"A Wedding", by John Kilpatric and "High Window", by Verne Powers, were particularly well presented for the student body this year. In spring the workshop produced a three act play as a public presentation.

Journeys to Lafayette College's Little Theater were quite frequent, and the plays presented were enjoyd by all.

Many a night after school, Saturdays and holidays preceeding the Senior Class Play, you would find this hard working crew on a painting spree. It was their job to produce a proper atmosphere for the actors. It was not always easy for them to transfer Liberty High School's stage into the setting of the play, but this crew certainly did a swell job.

The Personality Plus Club, under the direction of Mrs. John Rodenbach and Mrs. Robert Mentzell met on the second and fourth Monday of each month. The club was composed of girls who were taking or who had taken at least one of the courses offered in the Home Economics Department of the school.

The club was organized for the purpose of creating better understanding between the Home Economic girls of our school and to encourage girls in such things as poise, appearance, and social life.

During the year the club undertakes many activities but probably the best known activity of the club is the semi-formal Sweetheart Dance, which is held in February, usually on or near Valentine's Day. At this affar, which always attracts school-wide attention, the sweetheart of the club is elected and crowned by the sweetheart of the preceeding year.

The Hi-Y Club of Liberty High School is composed of sophomore, junior, and senior boys, all seeking "to create, maintain, and extend throughout the school and community high standards of christian character." The group met every Thursday evening, at which time there were a devotional period, a business meeting, and a program.

These programs varied; one of the more popular programs was a discussion of boy-girl relations; another, a talk on the history of India and the origins of certain Indian customs and habits by a native student of India. A program, which the club gave in conjunction with the Blind Assocation in Bethlehem, included a talent show. Afterward, the members of the Blind Association gave a talent show for the Hi-Y Club.

The activities of the Hi-Y Club have been as various as the programs. In October members of the Hi-Y Club acted as ushers at the corner-stone laying of the new Y.M.C.A. building. It was responsible for the distribution of campaign material for the Community Chest Drive. In November the club attended the Hi-Y and Tri-Hi-Y Rally at Lafayette College, Easton. On November eighteenth some of the members helped in the band parade in Bethlehem. In December, ten of the members attended the Older Boys Conference at Ardmore, Pennsylvania. On December ninth a cake sale, sponsored by the Hi-Y Club, was held to raise money for the club's trip to Washington. The organization also sold name cards for this purpose. As in past years, the Hi-Y Club served as ushers at the Christmas Vespers. The climax of the year was its annual trip to Washington, D.C.

MATHEMATICS SEMINAR

The reputedly staid science of mathematics will take quite a while to recover from the effects of Liberty's math seminar. Undoubtedly the noise of Don Coffin and his carrots must have carried far enough to disturb even Pythagoras. Nevertheless, the cause of mathematics advanced.

One problem in the theory of numbers offered a formidable challenge to the group — how to divide the six dollar year book fee among fourteen people. With true scientific spirit the greatest mathematical minds in the Lehigh Valley attacked the question. But the solution that could be found was to assess each person half a skin and to create a treasury for the excess.

This led directly to a problem in economics—how to collect the money. The group exercised excellent judgment and pushed the whole problem on Rose Mandic, who deserves credit for successfully making the collection. It probably would have been easier to squeeze blood from a turnip than to get Howard, Kraner, and Goldberg to chip in fifty cents.

It is interesting to note that Taglang, Buchwald, and Shunk found the mathematical background conducive to barbershop harmony. Mulholland would have made it a quartet, but his mind was too weary and troubled from the previous period's chemistry class. It's very questionable whether Nancy Eisenhart ever did find out whether x equaled y or whether it was the code name for a Russian agent. Sylvia Grube was often driven to the comparative haven of the CAULDRON meetings by some of the more abstract material, but Phyllis Bieber made a noble effort to take a few notes from material which the club's very wonderful instructor from Lehigh University, Mr. Olischar scattered haphazardly all over the blackboards. Progress was stopped intermittently for Phyllis Stoneback to find out whether she was watching a bona fide proof or a trick problem.

All in all, however, the math seminar was a great help to everyone, along with being loads of fun.

First row, left to right, kneeling: Richard Hochella, Braden Paulus, Rodney Heckert. *Second row, standing:* William Conroy, Francis Cannie, Lorraine Major, Jean Linsenbigler, Jeanne Stout, Warren M. Horne, Thomas Hlavinka, Arthur Dembrosky.

The Nature Study Club of 1950-51 met every Tuesday from 3 to 4:30 p.m. The second Tuesday of every month was set aside for the regular business meeting.

The purpose of this club has been to create in students a keener knowledge and appreciation of various phases in nature. In addition to this, the club has attempted to train students to become horticulturists, landscape gardeners, botanists, zoologists, ornithologists, and nature study counsellors at summer camps.

At each meeting the members responded to the roll call with some phenomenon of nature which they had observed during the preceding week. Meetings were enjoyed by having discussions and oral reports on many interesting subjects. Occasionally Mr. Horne conducted oral and written quizzes on objects that were observed and studied on various field trips. Sometimes the members graded themselves in order to determine who was the highest scorer.

On the field trips which were taken in the fall and spring, the club was accompanied by their gifted and interested faculty advisor, Mr. Horne, and sometimes by guests, who were always welcomed. The most outstanding characteristics of shrubs, trees, flowers, fruits, seed pods with their means of dispersal, birds and their nests, were pointed out and studied. Every member took notes on all that was observed on the field trips and then in their discussions at the indoor meetings during the term, they would relate and review all these things as they had studied them.

Some of the field trips were to the trails along the Monocacy Creek, to Illick's Mill or Monocacy Park. Others were taken to the Lehigh University Campus, the Lehigh University Arboretum, "Lookout Point" in Sayre Park, the Nisky Hill Cemetery and the Fountain Hill Reservoir Park.

DEBATING CLUB

OFFICERS

President .....FRED BACHMAN

Social Secretary .....NANCY THURN

Adviser—Mr. David H. Randall

The Debating Club of Liberty High this year has been one of the largest and also one of the most active Debating Clubs in Liberty during recent years. During the month of October, several members of the club visited grade and junior high schools in the area, speaking for the American Junior Red Cross. Students in the club interviewed members of the city's police and fire departments and the state police, in conjunction with a study made of the effectiveness of these departments. The club also visited the Bethlehem Steel Company police barracks and was taken on a tour of the building.

On the night of December second, a Snowball Dance was held by the Debating Club.

Many topics of both national and local importance were discussed in class. To top off the 1950 season, the club debated the annual Christmas topic; i.e., that the spiritual power of Christmas has been lost. At the beginning of the 1951 season, the national question was taken up. This question, which was also debated before civic organizations in Bethlehem is stated as follows: Resolved: That the American people should reject the welfare state.

This class proved to be a good place for students to blow off steam, and anyone going near 212 during the second period was sure to be greeted by a huge burst of wind. However, the time spent here was not wasted, for it taught many things other than debating. Members learned self-control, poise, and were trained in self-expression through contact with others.

Take another look at our picture, that's it, study it awhile.

We don't look like newspaper men do we? In fact we look like anything but reporters.

We get together every now and then and put out a paper; we call it the Tribune—the TECH TRIBUNE to be exact. It's just a small paper but we don't think the size matters too much if we have a lot of readers and they're satisfied.

The way we get our readers is to write our articles just for them with no other purpose in mind than making them happy, not boring them with a lot of dry monotonous reading. It makes us feel kind of good inside when we can hand the latest issue to someone and know that he's anxious to receive it and won't just throw it into the waste basket. That's why we're on the staff with the satisfaction that every little bit we do, whether it be writing, drawing, circulation, or just plain everything, goes to giving our fellow students, faculty, parents, and anyone who may read our paper a little enjoyment and a better understanding of our school and its activities.

The Future Craftsmen of America is an organization designed with the purpose of guiding and helping fellows who are interested in continuing their chosen trade. It is a welcome guide-post to those students who are receiving their training through the vocational type of education.

Under the guidance of Mr. Dubbeling the boys are taught to follow the rules of the organization which are as follows:

To promote the spirit of craftsmanship.

To prepare for a worthy occupation.

To become an efficient producer in order to meet the economic needs of a good citizen.

To promote cooperation between industry and school.

To build public respect for one's vocation.

To encourage habits of safety.

All of these guides lead the vocational student of today who will go on to be the craftsman of tomorrow.

DRAFTING SHOP

Industrial drawing is a vital factor to industry. There is a need for good, well-trained draftsmen. The directors of the Vocational Department have realized this and have devoted three separate shops to drafting.

The students receive their first year of instruction from Mr. Alexander. He teaches the boys how to use and care for the instruments and the basic fundamentals of drafting.

Mr. Andrucci is the sophomore shop instructor. The boys study many different phases of drafting in his shop.

Mr. Dubbeling, the junior-senior shop instructor. teaches the boys the more advanced drawing.

These three teachers are doing a fine job in preparing the drafting pupils for the future.

MACHINE SHOP

Instructors

Mr. Ross Mr. Hibberd Mr. Hope

The Bethlehem Steel is the major reason for the demand for trained machinists and machine-operators. The machine shops in Tech do their best to supply the demand.

There are three separate machine shops in Tech; each training students in a specific type of machine shop practice.

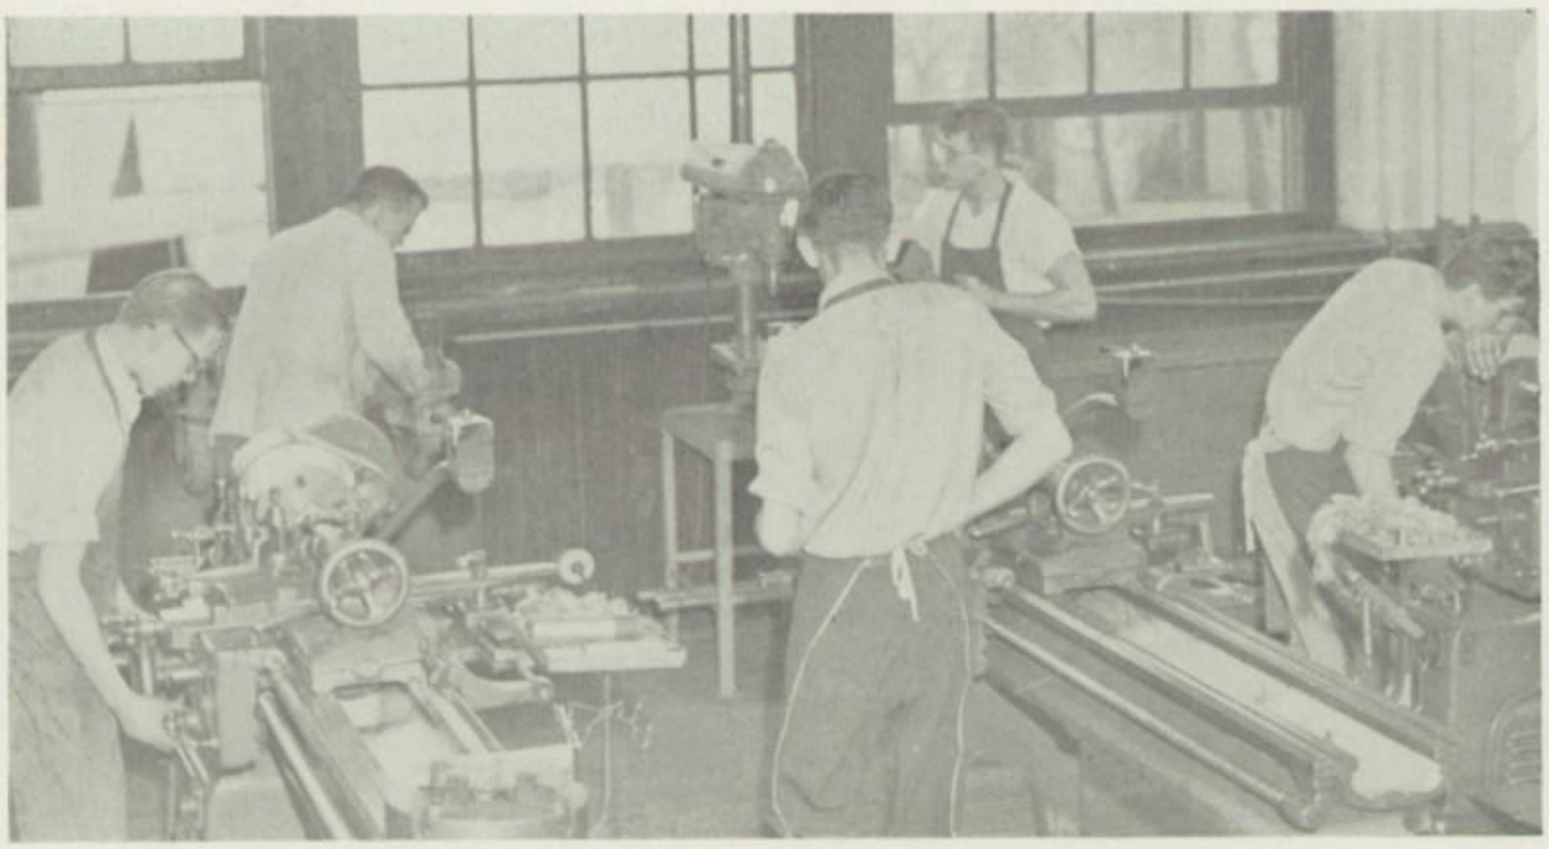
In Mr. Ross's shop the boys work chiefly with lathes, grindstones, and drill presses.

In Mr. Hibberd's shop the students are taught how to file, to work on various saws, and to run larger lathes.

Mr. Hope's shop contains milling machines, a power saw, drill presses, and other large machines.

The boys are first taught how to use each machine and then are given a job to do using the necessary machines.

The machine shops can be proud of the many fine machinists who have received their training at Tech.



ELECTRIC SHOP

Electricity is the cheapest and most important source of energy used today. Every day research men find a new way of using this fascinating power, so that there is a constant increase in the demand for men trained in a variety of fields of electricity.

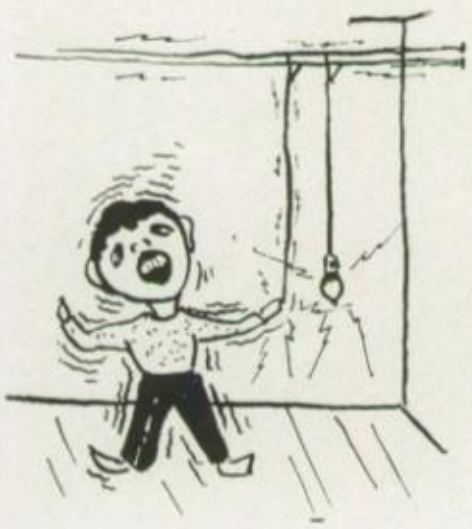
The electrical department of Tech is doing a fine job preparing and training these boys in the different phases of electricity.

In the sophomore year in the electrical shop, the boys are schooled on the fundamentals of electricity and house wiring.

The first part of the junior year is spent studying electrical theory; and with the second part the students work with D.C. circuits, motors and generators.

In their senior year the boys are taught how to wind A.C. motors. They also receive A.C. theory and do general repair work in and outside of the shop.

Mr. Rison, the able instructor, is training these boys to enter the field of electricity with a well-trained background. We think he has done a fine job producing future electricians.



Instructor ..... Mr. Risbon

WOOD SHOP

Instructor .....Mr. Detwiler

There will always be a demand for men who know how to work with wood. That is the reason why so many boys, when entering Tech, choose wood working as their vocation.

Mr. Detwiler, the instructor, is a wise, thrifty man and does a fine job in teaching his students not only how to build with wood but also how to eliminate waste.

When a boy first enters the wood shop he is taught the use of the tools and machines that he will work with in the future.

After they start to build with wood, the boys find it very interesting and turn out many useful articles.

The boys also learn how to paint and varnish their finished product, a vital and necessary step in carpentry.

The Wood shop can boast of the fine wood workers they have turned out in the past and they will continue to do so in the future.

AUTO SHOP

The automobile is the most important form of transportation in the United States today and since it is in constant need of repairs, there is a great demand for skilled and well-trained auto-mechanics.

The auto-mechanic shop of the Vocational Department is doing its utmost to train boys in this important field of industry. There are many phases of the auto-mechanic trade and our auto shop tries to include all of them.

In their first year the students become accustomed to the tools of their trade and do minor jobs around the shop. After they become proficient in their trade, the students are taught a little of everything about automobiles including body and fender work, painting, engine repair, and many other phases of their trade.

Mr. Vallone is in his first year as instructor and is doing a fine job.

PRINT SHOP

Instructor .....Mr. A. W. Hunsinger

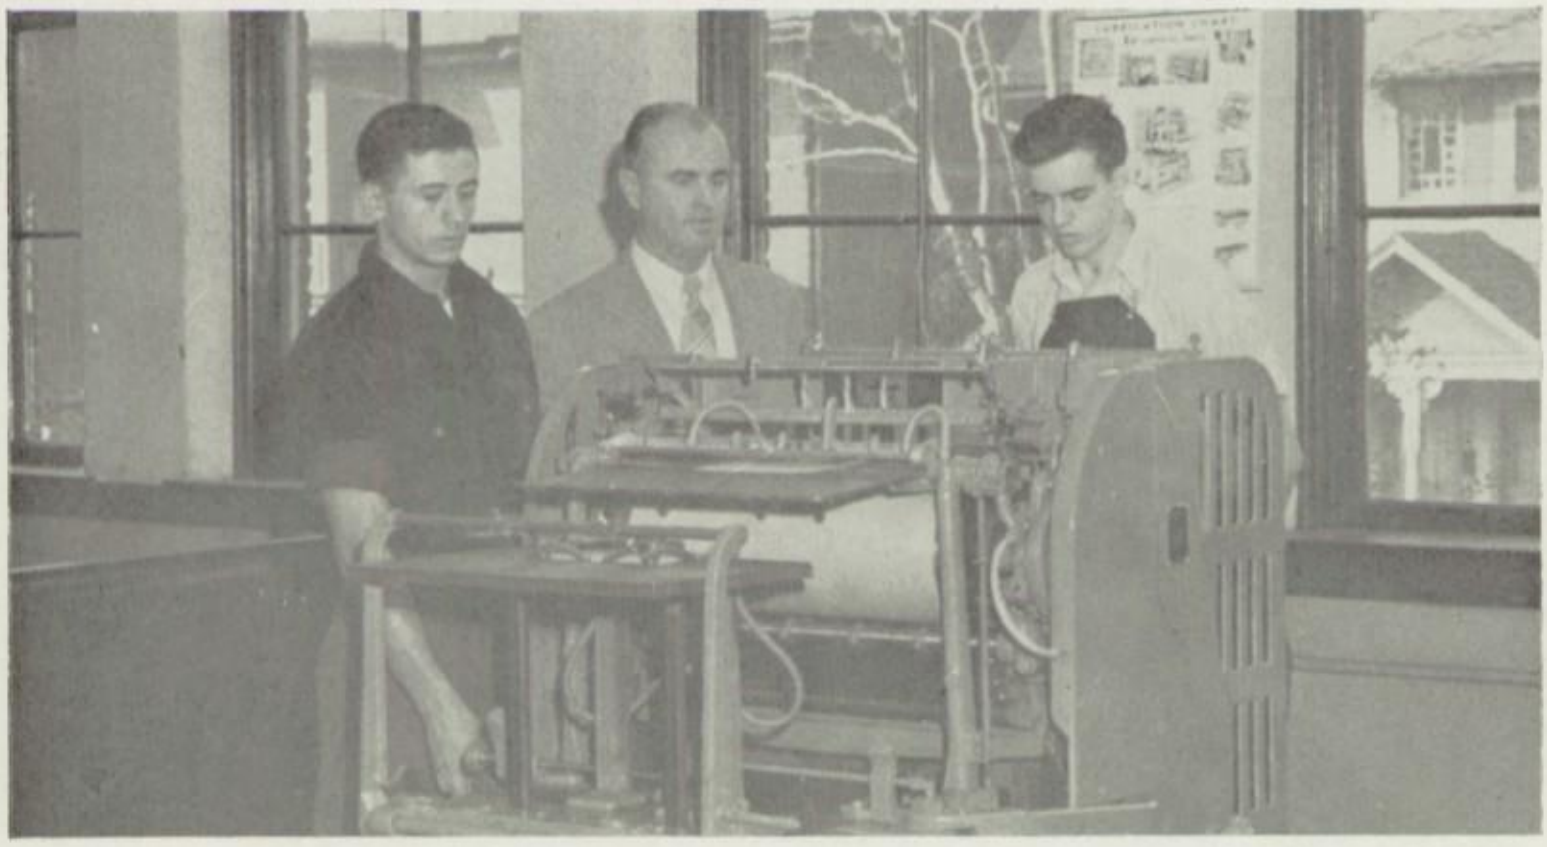
Education is built on the printing trade.

From books we gain knowledge, from newspapers we learn of current happenings, and in many other ways we are dependent on printing. This is one of the most important trades, for without it, civilization and learning would come to an end.

At the Vocational school print shop the boys are learning the basic fundamentals of printing.

The beginners spend their time on basic fundamentals and learning the use of tools and operating the machines they will use. The advanced students set up type and run the printing presses while the seniors print various school forms.

Every year our print shop prints many dollars worth of material such as report cards, tickets of all kinds, schedules, and many other projects. All of the work is done by the students themselves.



RADIO SHOP

Along with work there must be entertainment, and radio is one of our more popular forms of entertainment. Radio is not used only for enjoyment, but also plays a vital part in many other industries.

When one first enters radio shop, he starts by learning theory. Most students think that when they sign up for a radio course all they do is to put in a plug, turn a few knobs, and presto, sweet music.

Under the able instruction of Mr. Hartman the boys at Tech really get down to business, but, of course, there is always time for joking.

After the theory and basic fundamentals are learned, Mr. Hartman turns to an outline which he changes every year. This year it is, The Electron Tubes, Control Circuits, Radio Receivers, Power Supplies, Instruments used in Servicing, Repair, Replacement and Readjustment.

During the 1950 sason the Red and Blue Hurricanes, under coach Johnny Butler, racked up eight wins against two setbacks. Their 1950 season was climaxed with a thumping victory over Allentown High on Turkey Day.

Bethlehem High opened its season by meeting Southern High of Philadelphia in a scoring duel which proved to be the largest combined total score tallied by Bethlehem and an opponent during the season; 71 points, with Bethlehem outdistancing Southern 45-26.

The Hurricane's next game was played at home on a rain soaked turf against Roxborough, Philadelphia, but neither the weatherman nor Roxborough could stop the Bethlehem eleven which coasted to a 24-6 victory.

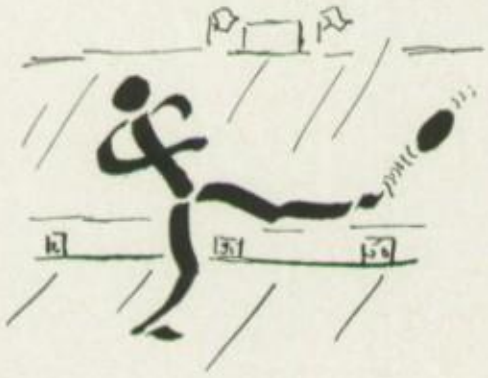
Bethlehem traveled to Phillipsburg for its third game and aided by its brilliant backfield and hard charging, alert forward wall, broke the Garnet's unbeaten streak of 15 games by outplaying them to wind up on the long end of a 15-6 score.

The following week Bethlehem met Northeast High of Philadelphia, and, after scoring three times in the first quarter, retained this advantage throughout the game, winning 27-6.

The Hurricane in the next game saw the tables turned, when they met the Red Knights of Reading, who at half-time led the Red and Blue by 13 points. Bethlehem, however, gathered momentum as the game progressed and roared into the stretch with a 28-13 victory.

Bethlehem's hopes for an undefeated season went out the window when they came up against traditional rival, Easton, who quieted the Hard Blowing Hurricane with an 18-7 blast.

After suffering its first defeat, Bethlehem rebounded with a decisive victory over Hazleton.



STATISTICS

	Beth.	*Opp.*
Points scored	245	82
First downs	115	88
Yards gained rushing	2280	1412
Yards gained passing	448	421
Passes attempted	103	85

Hazleton hasn't scored a point against the Hurricane since 1944 and this year was no exception. The Red and Blue laced the Mountaineers 35-0.

The Red and Blue sank the Vikings of Allentown Central Catholic by intercepting a Viking pass for a touchdown and clinching the victory by a touchdown in the fourth quarter. These touchdowns brought about a 20-7 victory.

Next the Hurricane met a high-powered team from Swoyersville who had lost only one game in the past three years. The Red and Blue suffered its second defeat of the season, 18-6.

When Thanksgiving Day rolled around it found Bethlehem meeting Allentown after a lapse of four years. Feeling was running high and before a sell-out crowd in the Bethlehem High Stadium the Red and Blue gladiators thrashed the newspaper favorite Canaries 15-6. The Hurricane's savagely charging line, alert secondary and outstanding teamwork brought about the upset in this one-sided contest. The score did not reflect the margin of superiority which Bethlehem held over Allentown.

Bethlehem's Junior Varsity Football Team under their coach, Burkhart, met some stiff opposition in their 1958 season.

The Little Red and Blue's came up against the following teams:

	Beth.	*Opp.*
Easton	14	13
Allentown	0	9
Allentown Central Catholic	0	0
Phillipsburg	6	34
Easton	32	7
Allentown Central Catholic	6	0
Northampton	20	38

The J.V.'s won three, lost three, and tied one.

With some of these players to fill in vacancies in the varsity roster, the Hurricanes ought to have a booming football team for its 1951 season.

The Little Red and Blue came up against such teams as: Allentown, Easton, Pottsville, Hazleton, Allentown Central Catholic, Reading, Catasauqua, Northampton, Slatington, Pottstown, Phillipsburg, Bethlehem Catholic.

Leading candidates for varsity berths are Polenchar, McGovern, Zaun, Jenkins, Vresics, and Gerencser.

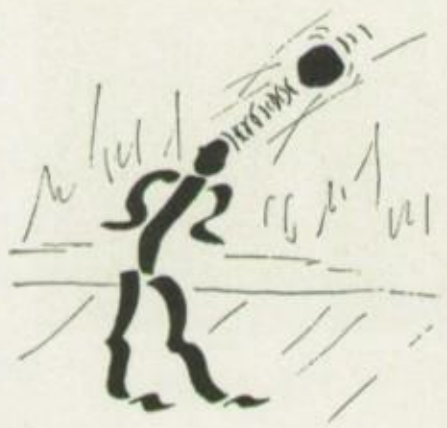
When B.H.S. met Jonestown for a second time it was a different story, 0-0 deadlock with both teams continuously pounding each others goals. Reading followed this dead lock, handing B.H.S. a 1-0 defeat, scoring in the first minute of play. B.H.S. rallied and completed its season with an impressive 6-1 victory over Springfield.

Coach Martz's outstanding player of the season was Harry Tsamutalis who made 9 out of the 16 points which Bethlehem scored.



WRESTLING

Throughout the season the Red and Blue grapplers came to grips with Allentown twice, defeating them both times by scores of 28-12 and 39-8.

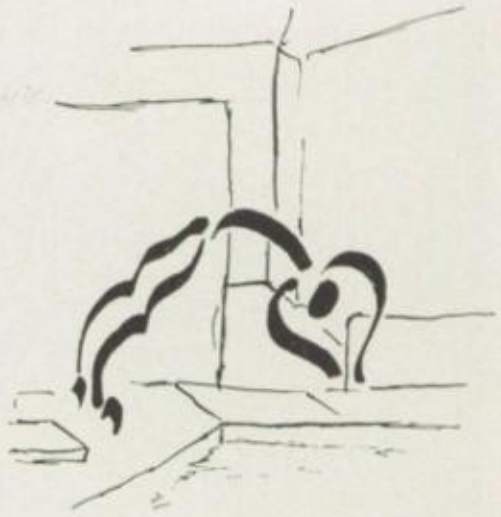
BOYS' SWIMMING CLUB



Good afternoon, students, this is your roving reporter at L.H.S. I'm down in the basement watching Ted Martz's swimmers prepare for their part in that great show, The Aquacade. They have completed a few warm-up laps around the pool and are now practicing their swimming formations and diving acts. It is not so easy as it seems to have the precision and rhythm these boys have. What about diving? I've never seen so many back doubles, front flips with full twists, full gainers, and other difficult dives. Over in the corner I can see the clowns getting ready for the big show.

We'll have to move on, now, but you can bet I'll be with the crowd down here January 25.

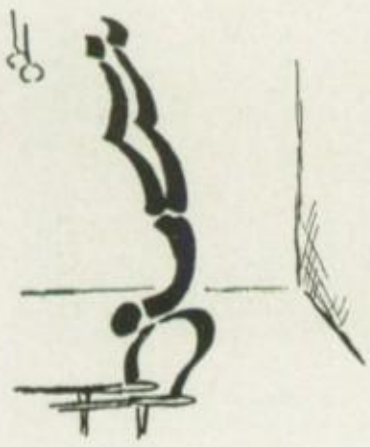
When Mr. Troxell and Mr. Martz gather together the best boy gymnasts of Liberty High School, you are sure that a spectacular gym exhibition will be the result. These tumblers meet fourth periods, Wednesday and Thursday, and after school practicing for hours on tumbling, apparatus called a horse, flying rings, horizontal bars, Swedish boxes, etc.

Although this work is extremely difficult, the boys, through their hours of practice and effort and because of their capable instructions under Paul Troxell made the annual exhibition a great success.

The more experienced boys from last year's team are as follows: R. Fresoli, W. Maiorello, C. Cook, R. Sutch, S. Stehly, A. Kurisco, J. Conti, W. Strein, S. Moyer, V. Kaufman.



BOY'S BOWLING

If you were to wander across the street on a Friday after school to the Liberty Bowling alley you would see some of your friends practicing to be future Andy Varipapa's.

Under the leadership of Mr. Harold Bilheimer the boys were divided up into the following teams:

Team	*Captain*
The Red Sox	Supeck
Cardinals	Morga
Athletics	R. Gutierrez
Yankees	Scholl
Dodgers	F. Gutierrez
Phillies	Hudak

The boys who make up these teams are: Supeck, R. Gutierrez, Skertic, F. Gutierrez, Hotchkiss, O'Connors, Marga, Roder, Dales, Coleman, Rice, Hutt, Nemes, School, Hudak, Gotschall, Babar and Keller.

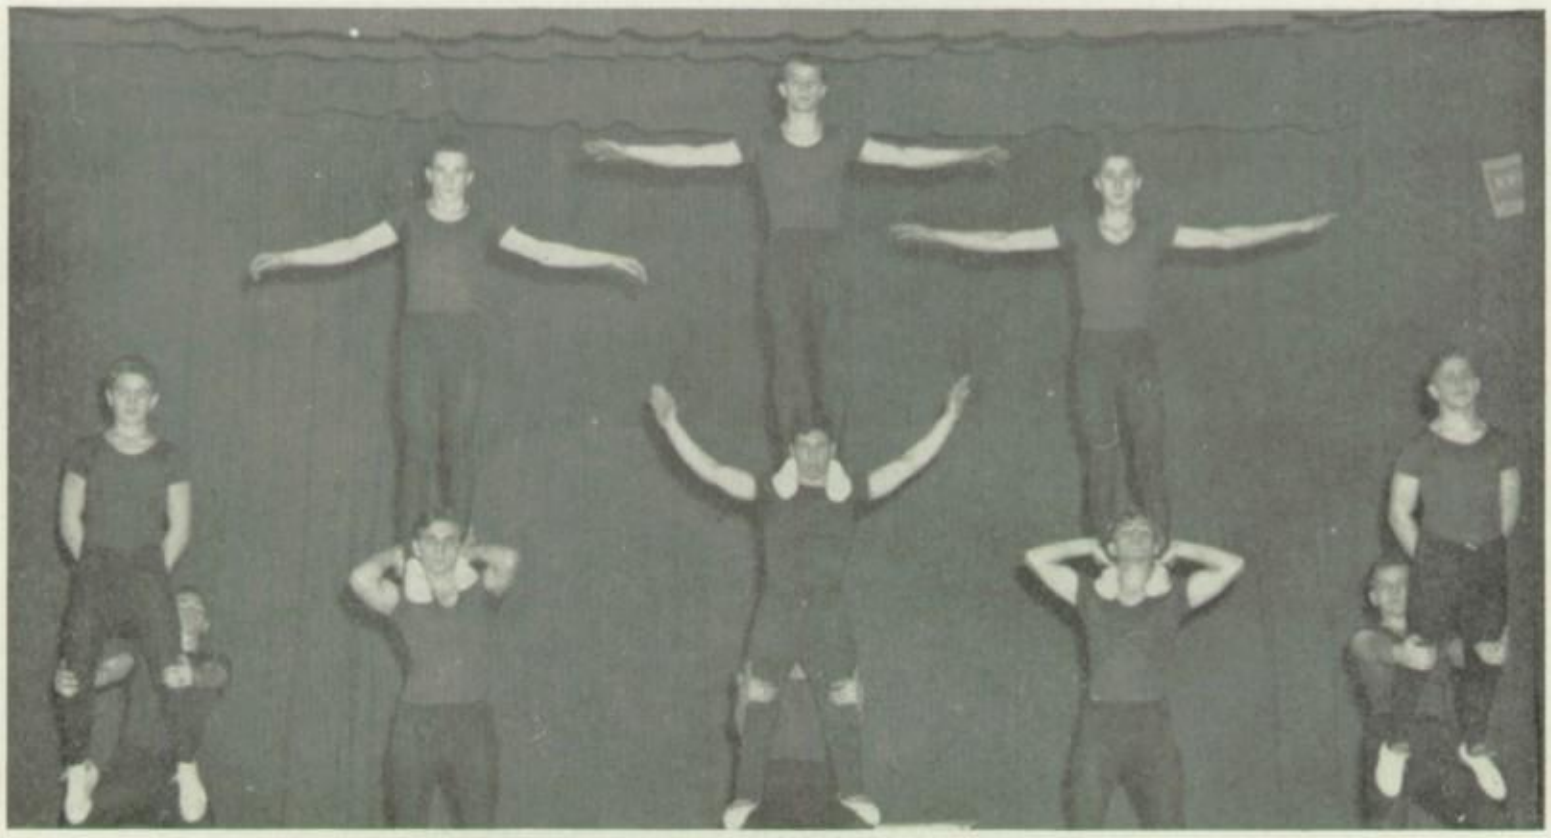
TECH TUMBLERS



The Tech Tumblers are an integral part of the Annual Minstrel Show at Tech. Not much is known about the boys, and they are not publicized as much as the rest of the cast. However, they deserve all the credit in the world.

They started their practice sessions before anyone else in the cast started theirs, and under the careful guidance and supervision of Mr. Leo Prendergast, improved until they could do even the hardest acrobatics with the greatest of ease.

The tumblers are: James Yeakel *Captain*, Joseph Fodero, William Butryic, James Hageter, Carl Hoffman, Robert Kerstman, Robert Kiefer, John Miller, La Mar Mindler, David Peters, Robert Raykos, Donald Repsher, Richard Schreiber, and Lee Steffer.

Good afternoon! students?

We again bring you your sports writer from Steel Field who will give you a brief summary of Bethlehem High's Baseball team coached by John Howard. B.H.S. came through with an impressive record of 8 wins and 4 losses.

The team's batting average was 1000, defeating Hellertown 13-0; Phillipsburg 5-1 and Central Catholic 13-5, until Reading and Allentown downed them 7-10, 7-2. B.H.S. then met Easton and defeated them 6-2. This win, however, was followed by two defeats; one to Phillipsburg 5-3 and the other to Reading 6-5.

They bounced back to win their last four games, Central Catholic 1-0, Allentown 10-6, Easton 14-1 and Hellertown 16-0, to wind up the season with a batting average of .666.

TRACK

Take your mark! Bang! They're off to a good start but how about the finish. Yes folks this is your sports caster bringing you your 1950 track team's record form start to finish. Mr. William Emrey, known in the sporting world as "Pop", probably suffered his worst season in years, losing 5 out of 7 dual meets, placing eighth at Penn Relays and third at District XI P.I.A.A.

Last sring B.H.S. was out in front beating Emaus 51½ to 47½ and Whitehall 73-17.

But going around the far turn they lost out to Reading 37 2/3-79 1/3, to Allentown 51-65. After coming in eighth in Penn Relays, the cindermen lost again to Pottsville 84½-82½, to Phillipsburg 55 1/3-43 2/3, and to Easton 56-52. B.H.S. finished the season race by coming in third in Distrct XI competition with James Hydusik winning first in the discus throw in the districts.

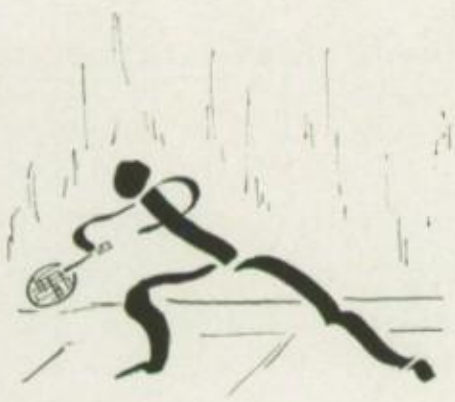
Hello again this is your sports announcer bringing you a summary of Liberty High's 1950 tennis team from Sand Island.

But first a few statistics about tennis. Tennis has been popular at B.H.S. ever since 1922. For the past four years Mr. Frank Kernan has coached teams to many victories and an undefeated season in 1950.

The "racketeers" came through with a perfect set of six victories in six matches taking the first match from Reading 4-2 and following with victories over Allentown 4-2, Easton 5-1, Easton 4-2, Allentown 5-0 and Reading 4-2.

In concluding this broadcast we would like to say that we hope this year's tennis team will equal the record of the 1950 netsters.



GIRLS' SWIMMING CLUB

Mrs. Leidig had a tough time picking the thirty-eight members of the Girl's Swimming Club because each girl was judged on her form and style of different strokes. Every swimmer who tried out had good qualities, but only the best are members of the club.

The big event of the year was the combined water show. Using luminous suits which glow in the water and spotlights; the boys and girls put on a great swimming exhibition. Along with the races, a comedy act, and special diving, was an added attraction, that of crowning of a King and Queen. Chosen for this honor were Dorothy Knesz and William Rogers.

Before and after the "Aquacade" there was recreational swimming and floating for fun. The girls played water basketball, had races, learned new dives, and swam until their hair was water soaked. A little pay comes from this work which is fifty points toward earning an intramural sweater.

Each class elected a group of girls to act as executives of the club. They are: *Senior class*: Ann Thurn, Mary Louise Wassman; *Junior class*: Nancy McKelvie, Dolly Muschlitz, Pat Eddy; *Sophomore class*: Barbara Hittinger.

Soccer teams were given the names of automobiles during the 1950 season. The turn out of girls was large which provided the athletes with some hotly contested games. Weather conditions seemed to be on their side and the season was long.

Two extra games were played because of a three-way tie between the Plymouths, Buicks, and Pontiacs. 'Bates" decided a bye was the fairest way of settling the tie. The Pontiacs won the bye; therefore the Plymouths and Buicks played.

At the end of the game the score was tied. After five goal kicks by each side, the Buicks made a point and won this game.

The spirit of each girl was high and the play-off between the Buicks and Pontiacs was a thriller. Finally, the Pontiacs were victorious.

Each girl on the champion team, for the first time, was awarded a medal.

The total results of the season are:

Teams	*Captain*	*Manager*	*Won*	*Tie*	*Lost*
PONTIACS	F. Cannie	D. Prebosnyak	5	2	3

GIRLS' HOCKEY

During the November chills, Mrs. Elsie B. Weston put out her call for girls' intramural hockey. Despite the miserable weather, there was a spirited group of players.

The five teams, which were given the names of cigarettes, had great enthusiasm for the game. The season was cut short after each team had played in four contests.

The Chesterfields with a record of 3 and 1 found themselves on the top of the list as champions for the season of 1950.

The total results of the season are

Teams	*Captain*	*Manager*	*Won*	*Tied*	*Lost*

For the first time in eighteen years Bethlehem High School has a Girls' Varsity Basketball team. Golly, those girls work hard. Every morning from seven o'clock on you can find them practicing in the gym. It takes plenty of time to organize a bunch of "green horns" into a smooth working basketball team.

The girls had a tough schedule since all the teams they played have been in competition for several years. The Bethlehem sextet opened their season on January 16 by crushing Coopersburg 40-17. February 1st brought luck to Bethlehem, defeating Fountain Hill High 30-27. Our life-long competitor, Allentown High, turned our streak of winning by a close score. The result was 28-26, Allentown on top. Allentown, Pa. was a little too much for our inexperienced girls, this time Allentown Central Catholic, the score 53-29. Again Allentown High held us down, the margin was greater 43-35, this game was on March 2.

Bethlehem can still hold its head high because of the valiant stand it has made in its contests and they will probably win the next two games, one with Fountain Hill and the other with Allentown Central Catholic.

Good luck kids!!

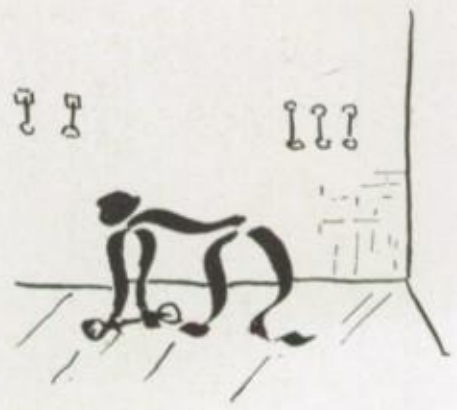
This year marks the second year of intramural bowling for girls. There was a great number of girls who signed up for this sport; but when the actual bowling started only a few appeared at the alleys.

From Thanksgiving to Christmas instructions were given to the new bowlers. After the Christmas vacation teams were formed and bowling got under way. The Liberty Bowling Alleys was the scene for the pin action every Monday and Thursday after school. As a result, attendance on Thursday night was poor. The Thursday nighters combined with the Monday night teams. Finally, eight teams were organized with five girls on each team.

As the year progresses and as the girls become more informed about the art of bowling, keen competition will arise among the girl keglers.

SOPHOMORE GYM CLUB



Have you ever passed the gym on Tuesday during the fourth period? Did you see the girls standing on their heads, working on the parallel bars, or practicing dances? Those are the sophomore girls in the Gym Club.

All girls who are interested in all types of gym work join this club. They train to put on a combined gym exhibition with boys and girls from Junior and Senior classes. Early in the spring many limbs limber up and many shins get black and blue trying to perfect a certain act.

The Sophomores did the Irish Lilt in the exhibition as their specialty number. Additional contributions were their marching and splendid drills.

When they are not preparing for the exhibition they participate in all sports in their respective seasons.

First row: K. Collins, N. Speck, M. Stein, M. Beatty, S. Cope, R. Lake, A. Roth, F. Cannie, P. Garland, B. Kerchner. *Second row:* D. Majewski, M. Lazorik, A. Steiger, P. Fulmer, L. Remaly, J. Seisholtz, L. Blatnik, F. Boehm, S. Shearer. *Third row:* L. Paulus, R. Remaly, D. Donchez, H. Popadinecz, V. Remaly, A. Pendleton, M. A. Ofchus, L. Matz. *Fourth row:* M. Roos, J. Poole, J. Schumacher, S. Cope, Elsie B. Weston, G. Sherman, K. Cook, G. Evans, P. Brandt.

GIRLS' LEADERS' CLUB

First row: M. L. Kilpatrick, A. Beckage, P. Banuelos, R. Garcia, P. Rose, M. L. Schussler, Mrs. E. B. Weston, V. Benes, B. Beltzner, A. Vollman, S. Hoke. *Second row:* Y. Dieter, D. Fehr, J. Toth, C. Craig, D. Kovacs, F. Cannie, V. Frank, M. Ihle, J. Clark, J. Slapinsky. *Third row:* A. Koehler, E. Augustine, B. Knapp, C. Andrews, E. Grimes, G. Schmidt, N. Rinker, S. Ruth, M. Shannahan, M. Starner.

The Girls' Leaders Club is made up of the junior and senior girls under the direction of Mrs. Elsie Weston. Its main purpose is to create more "Mrs. Westons." Because of overcrowded physical education classes, "Bates" feels that certain girls interested in this field can be trained to aid her in making the classes more interesting.

A project in which the girls were successful in was that of obtaining permission to have a girls' varsity basketball team.

CHEERLEADERS

Who spur teams on to victory? Who freeze during football season, then sweat while basketballs whiz by? Of course, its our cheerleaders, thirteen. Unlucky? Never! Mrs. Leidig surely worked hard to get and keep these five boys and eight girls with their sparkling new uniforms in tip-top shape to provide the nucleus of cheering.

With these peppy cheerleaders driving on the student body, many a person had a sore throat or a loss of voice from yelling their lungs out. The squad of '51 had fun and thrills along with their hard practicing. With their good sportsmanship and showmanship they carried out the spirit of Liberty High to the fullest extent.

First row, left to right: E. Marcon, J. Ayre, E. Apple, N. Eisenhart, R. Halleman, D. Hinkle, J. Dickson, S. Doan. *Second row:* C. Garland, J. Gardner, H. Snyder, M. Zanakos, R. Young.

MAJORETTES

Kneeling: D. Miller, C. Sabol, F. Cannie. *Standing:* E. Farkas, J. Reynolds, F. Csencsits, J. Saurino, N. Ziegenfuss, G. Laskowski, G. Mark, S. Druckenmiller, R. Moyer, M. Munchin, E. Spishak.

Fourteen high stepping majorettes! The new ones are picked from the sophomore class and begin their training the summer of their junior year. Usually they remain on the squad for two years. About their training—they teach each other. The majorettes from the previous season apply their knowledge and coach the new ones. This works out very well as you'll know when you see their excellent performance. (P.S. Bates has her hand in the teaching of the girls.)

Majoretting is one of the best and toughest jobs at Bethlehem High School. It is also a cold one! Of course, when they hear that drum beat and watch a thrilling football game as Bethlehem vs. Allentown, they don't feel a thing.

There are a few chores tied up with majorettin, and they are primarily "get that skirt stiff enough" and what are they going to do the next week.

They try to please the critical eye of the public, and they seem to be doing a terrific job.

TECH CLASS HISTORY

The class of '51 got their start in 1947, when a small part entered as freshmen. The following year the majority of our class entered Tech as sophomores.

Our junior year proved to the school that we were to be one of the most ambitious groups ever to graduate from Tech. Our first project was the sale of Christmas cards, which we carried out with great success. We also ran a profitable sale of Easter candy.

Mr. Keim then proved to us how capable an advisor he was by producing and directing the first play ever staged in this school. This was quite unique because it was staged with an all-male cast and proved to be a tremendous success. In addition to these activities, we participated in others, such as the minstrel, the Glee Club, the Hi-Y Club, and other school functions.

When we entered our senior year, we had a considerable sum in our treasury, but we still continued our selling campaign. The first of these was the sale of Christmas cards, and a little later we sold Christmas candy. Both of these proved to be successful. We finally ended our careers as salesmen by running a Curtis Campaign through which we sold subscriptions for popular magazines.

We concluded our happy years at Tech with the Senior Ball and the Commencement exercises at Grace Hall on the Lehigh campus. Our graduation left us to face the world with the memories of the few short happy years we spent at Tech.

LIBERTY CLASS WILL

Three happy years,
Three happy years,
See how they went,
See how they went,
Now that we all were so lucky to pass,
The school is left to the Junior Class.
Poor Liberty High!

We of the class of 1951 think it only fitting and proper to pass on some of the traits of students that have made our class either outstanding or unusual. We, therefore, being of sound mind (?) and body, do hereby bequeath with pleasure and some misgivings the following items:

First, we lift the heavy duties of a class president from the shoulders of Ben Nevis and drop them with a thud on Savy Pasqualucci's.

Eddy Townsend, Joyce Dickson, and Tom Falcone inherit the offices of Joe Zubia, Timmy Bastianelli, and Anne Collins, unless there's a revolution in the Junior Class.

Then, carefully preserved in formaldehyde, the valuable Stoneback brain goes to Ann Leh. It has been insured by a reliable company.

Molly Shannahan and Bob Buchwald leave their bottles of henna to Barbara Pierce and Bruce Villard.

Dick Zahm, the "biggest little boy" in the Senior Class, thinks Pete Haupert can reach his heights.

Eleanor Marcon gets a very special ability to wear clothes from Nancy Zeleski. (Although we hope she had some of it before!)

Bob Rohland wills a man-sized chair to the 312 study hall.

Faith Cannie leaves a handspring to her sister, Francine.

Tom Hill puts his cuff links in a safety deposit box for Buzzy Richards.

All of Esther Grimes pep and fun goes to Marguerite Scott.

To Jimmy Ramburger, Bill Shunk bequeaths a rare (?) poetic inclination.

Ronnie Jones leaves an eyelash to Joe Illick.

Millie Siftar will have to go some to equal Dot Lazarowitz in crowding twelve girls into a car.

The spiders in 207 get the bid for weaving Miss Mumbauer's new curtains.

Ben Nevis and Blake Fenicle leave that ability of making out with the Allentown girls to any two brave Juniors who can look the Junior girls in the eye after it's all over.

Glenn Earich wills his cowboy boots to the Lone Ranger.

Martha Ure has just completed some brand new, entirely different, stencils for Mr. Dando's forthcoming government classes.

Joan Fehnel bequeaths her last name to her sister, Anne.

Ralph Salvage leaves a wink and kiss to each one of you blushing roses of the Junior Class.

Phyllis Fraser donates her darling dimples to delightful Dinky Doan.

Danny Gordon leaves $.05 to Mr. Klein to cover any damages to school property incurred during his three year sentence.

The cafeteria girls give all the food they've ever dropped to *Care*.

Eddy Brown leaves his glasses—no he doesn't either! He needs them for reading the racing sheets.

To Mrs. Funk, we bequeath a copy of "Who's Who in the Junior Class", recently revised with completely up-to-date information.

Bob Butler wills a baby curl to Bill Fox.

To the bravest junior goes Joel Bodder's courage when driving ninety miles an hour.

Ann Thurn wills her knack of eating so much and then looking like Miss America to Joanne Meilicke.

Don Smith leaves a lunch in the CAULDRON cabinet, to be divided evenly among next year's staff, if the mice don't get there first!

Joyce Weller leaves her dogged arguments to any one of Mr. Randall's up and coming young prodigies.

One of Gordie Goldberg's jivin' feet and one of Bill Conroy's "Charleston" feet go to Tommy Sanchez.

Although it has never been done before, Alix Moyer bequeaths the CAULDRON room key to her colleague, Kay Peterson, so she can lock herself in and have peace and quiet.

TECH'S CLASS WILL

Arthur Amelio leaves his basketball sharpshooting eye to Robert Gasdaska.

Bernard Bartek and Ed Hassick leave their football shoes to be filled by Marvin Wuest; his feet are big enough.

Donald Boose leaves his shiny auto shop locker to Tommy Macarro.

Robert Clause leaves his chores as endman in the Minstrel to the capable hands of Nicholas Begovich.

Ernest De Bellis and Donald Race leave their mat ability to anyone who can wrestle with a situation.

Willard Deysher and Louis Talabar, the two auto repair shop magnets, leave their thriving business to future auto shop students.

Robert Dugan leaves his set of socket wrenches to any junior who can remember where he stole them.

Warren Eglauf leaves his halo to Bruce Kelchner.

Alfred Frabotta and Herbert Kramer leave their broken pencil points to anyone who can use them.

Gerald Groman and Edison Leonard, Mr. Hartman's private nurses, leave their chores to Charles Jones and Donald Reinert.

Robert Hammersmith leaves all of his bent nails to Joe Stofanak.

Stephen Hrin and Alfred Nemeth leave their full chip boxes to anyone who is willing to empty them.

Douglas Kashner and John Marcinko leave their sisters to anyone with open arms.

John Kiss and Arthur Lovak leave their auto mechanics books to anyone who can read them.

Roswell Klinger leaves his Chrysler to Donald Reinert.

Richard Kram leaves his place as a pitcher on the High School's team to Carmen Gallo.

Francis Labuda, Mr. Detwiler's prize student, leaves his absentee time to be made up by Joe Oplinger.

Dick Lawrence leaves his basketball ability to Francis Vresics.

Albert Libricz and John Ulicny leave their good looks to Bob Del Re and Joe Yelovich.

David Lynn and Robert Philippi leave their machinist's ability to Lee Steffen and Donald Ruth.

John Marcin leaves his sparkling personality to Guido Brite.

John Masiado leaves his autographed school books to LaMar Windler.

John Miller leaves his job as school electrician to the future electrical shop students.

Gilbert Pfeffer gives his daily bus ride to Royce Ebner.

John Pierson leaves his convertible to Paul Wetzel.

William Pursell and Robert Wagner leave the electrical motors that they never finished winding to the juniors of the electrical shop.

John Sarik leaves his crystal set to any junior with cat's whiskers.

Behind the Scenes

CLASS PROPHECY

Madame Futurama is my name, and I specialize in fortunes. Just between us, business hasn't been very good lately, so you can imagine how happy I was when the Liberty CAULDRON Staff commissioned me to deliver a load of prophecies. I immediately polished up my crystal ball, got out my moth-eaten turban, and went to work. The following fortunes are the result of concentrated future probing.

Dolly Spanitz will be a bareback rider in the Barnum and Bailey Circus; Bill Fulmer, the humor editor of the Christian Science Monitor; and Dave Stehly will be King of the Hoboes.

Fred Bachman will be a rich maharajah, and Dick Strouce will wave a fan to keep the flies away from Fred. Included in his harem will be Joan Eckley, Pat Leun, Vicki Sprandi, and Dot Hinkle.

Down New York way, I can see Connie Sabol as a fashion model in an exclusive shop run by Beverly Bott. Her photographer is John Posivak, and Fred Schmidt is in charge of all special lighting. All her clothes will be designed by Betty Jane Moser.

Out in Hollywood, Donald Moore will be busily directing a movie, financed by Rex Enright's millions. Betty Matlich and Chris Gatanis have the leading roles.

Bob Mulholland will be another Perry Mason, trying to defend Harvey Walters on a counterfeiting charge.

Joyce Bieber will enter a successful career as a history teacher at Liberty, down in old 22. I predict that her twin, Phyllis, will make homemaking her career. I can see her busily teaching her kids to work math problems before they start to walk.

Dave Dewitt, Don Coffin, Jay Howard, Don Venseret, Blake Fenicle, Ben Nevis, and Stan Goldberg will form an Out-of-Town Dating Agency.

Bert DiDonato will be great as head-drummer in an African tribe, and he'll have Anthony Klein along to keep him company.

Hoby Kraner will be kept busy setting world records with his sailboat.

Phil Howlett will write a book entitled, "How To Be A Wolf in Ten Easy Lessons."

Am I seeing things, or is that Dr. Chris Donchez giving Mr. McIntyre a blood transfusion? Yes, it is and she's being ably assisted by nurses Jerry Bodner, Julie Kozul, and Dot Szvetecz.

It seems that the CAULDRON Staff of 1981 just told Mr. McIntyre that they couldn't meet the deadline.

"It is written in the stars"—that Wimpy Belgrash will be a sure-fire hit on a television show with her impersonations.

Dick Taglang will run a pest exterminator business. (That could be dangerous, though. He might exterminate himself!)

Dot "Leadfoot" Taylor will use her special skill in auto racing, and Shirley Wimmer will probably be doing French interpreting for the U.N.

"Better Boots (cowboy, that is) for Better Boys" will be manufactured by Walter Montz.

Unless I'm very much mistaken, Janet Rohland will be cartooning for a national syndicate.

Coining a tired old phrase, "the little man with the big voice" has great things ahead of him. Yes, in the future Doey Doll will be singing for his supper.

Bob Graf will be drilling huge holes in the teeth of some poor innocent children, and Bob Gray will be living in his own world of wrestling.

With these words I shall end my prophecy—may you all be little angels someday.

TECH CLASS PROPHECY

If in the future we could be, very likely we might see:

"Dick" Ackey in his role of "Young Man with a Horn." Curtis and Gilbert Smith manufacturing cough drops—some new brand called "Smith Brothers."

Sam Isaac in his new position as City Playground Director.

John Edinger, well on his way to his life ambition—being a man.

"Walt" Schaedler, managing the Tidy-Didy service.

"Dick" Tremmel and "Reddy" Lucente, co-owners of the P.P.&L.

"Steve" Hari running the most dependable bus service Se-Wy-Co has ever had.

"Joe" Fabian and "Jit" Petko nearly finished spraying Lehr's Plymouth.

Harris Hoke, who just opened the "Ooo-La-La Beauty Saloon."

"Ham" Berger and "Tom" Herceg widening the Freemansburg canal.

"Dick" Check still happy in his hobby of waking people up.

"Steve" Bachochin and Frank Chavar, the proud owners of the "Ba-Cha" Super Service Station.

Elmer Fritz, who read all of the Westerns ever published became a novelist and now writes his own.

"Jim" Yeakel and "Joe" Fodero giving sewing lessons.

"Art" Clay as chief projectionist at Radio City Music Hall.

Gordon Burk and "Dave" Peters, co-authors of the book, "What Every Good Draftsman Should Know."

Randall Young, owner of "Randy's Dandy Tooth Pick Factory."

"Ben" Kinkade and "Steve" Kloo, still arguing with each other.

"Steve" Hrusovsky, the Lehigh Valley's prominent fight promoter.

"Tom" and "Bill" Mills, making their debut into the musical world as the "Mills Brothers."

Joe Poniktera, who is so shiftless he is known as "Hydramatic Joe."

"Ken" Paulus and Fran Tratnyek, owners of the "U-Fix-It" flat tire service.

"Dick" Haidle, Bath's most prominent "Stump Jumper."

"Tony" Del Vecchio and Fran Turek, coaches for Bethlehem's leading athletic clubs, "The Slate Carriers."

Geza Nemetz, owner, clerk, and stock boy of Nemetz Numerous Notions and Co.

"Joe" Donchez, "Mike" Potkovac, Ronald Kaspern, and William Wargo are singing waiters at the Ritz.

Which is the best class of th-m all?
You've seen good ones and bad ones,
And some in-between.
But tell us reflector,
Which one is the queen?

Mirror, Mirror, please tell us a'right
Of the classes that passed here, which one saw the light?
Was it last year's, or this year's,
Or one yet to come?
Do we live up to standards
Or are we the bum?

Oh mirror, oh mirror on high school wall,
The kids in *our* class are on the ball.
Our shindigs, school records,
Were some of the best.
How say you, sage prophet?
Do we top the rest?

Dear mirror, dear mirror, oh pray will you say,
How our class will rank on that fateful day?
When it comes to judging
For that honor sublime,
Shall we rank as the one
Or with the ninety and nine?

We've come a long way, and we're nearing the bend
Where we turn to the right, life's road to ascend.
We've gone far together.
But soon we must part
We hope your opinion
Will give us new heart.

You've spoken your piece right nicely, young man,
I'll give my opinion as well, if I can,
You know the old saying,
"When all's said and done?'
Well, there's none better
Than the class "51".

Alma Mater

Hail to Alma Mater dear!
Where we've spent our high school
years.
Now to Bethlehem High we raise
Voices to extol thy praise.
In thy stately halls we've spent
Hours with hearts and minds content,
Now to thee, dear Bethlehem High,
In our loyalty we cry:

Bethlehem High School, hail to thee!
Loyal sons and daughters we,
In the future as the past,
We'll be loyal to the last.

Hail the dear old Red and Blue!
To thy colors we'll be true.
As the star of Bethlehem shone,
So our love for thee has grown.
In the world where e'er we are,
Nothing shall thy honor mar.
Though the future years pass by,
This shall always be our cry.
